

Closure:

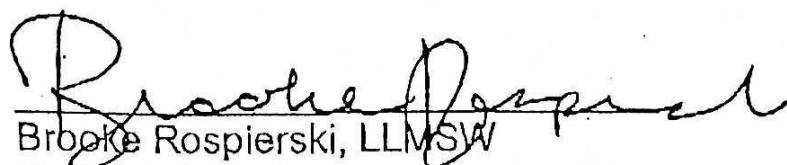

M.K. and I discussed neutral topics. I thanked her for coming in to talk with me today and escorted her back into the waiting room.

CONCLUSIONS:

M.K. made multiple disclosures of sexual contact by Larry Hail. According to M.K. these contacts took place between the grades of first and second while she was seven or eight years old. All incidents took place at Larry Hail's home. M.K. disclosed that Larry forced her to engage in more than one act of vaginal/penile penetration, more than one act of vaginal/digital penetration, more than one act of vaginal/oral penetration as well as forcing her to engage in digital/penile contact and oral/penile contact.

During the interview M.K. also made statements that her grandfather had touched her on private parts of her body; however when I further spoke with her she denied that he had touched her and only made her feel uncomfortable.

M.K. was extremely upset when discussing these issues and informed me she was worried that he would go to jail. I am concerned that she may be minimizing her original statement due to her understanding the consequences of her disclosure.
